When there are problem in erection, generic Viagra in the internet is a good choice to help solve your problems.

## GENERIC VIAGRA IS A WONDERFUL REPLACEMENT FOR CONVENTIONAL VIAGRA

Many adult men are suffering with impotence. Most of the time this are brought by unhealthy lifestyle, stress and even to much sex. Male are more affected with impotence than women and it has a scientific name of erectile dysfunction. One way to cure this problem is by using Viagra and this are sold via the internet or counter. However, being a costly drug makes Viagra a hard commodity especially for low-income men and if it is taken daily that is why a cheaper version has been made to solve

this problem. One example for this **generic Viagra is Sildenafil** which has the same active substance as Viagra. It is cheaper than Viagra but has the same effects.

**Generic Viagra copies** all characteristics of a branded one but there are still a lot of precaution on how it should be taken. Generic Viagra main advantages are it is easier to enter on your body than the original one which gives an immediate effect. Patient can also take it during a meal and even you're an alcohol drinker. Its effects last for 7-10 hours with minimum side effects with less to no uncomfortable sensations. The drug will not cause physical nor mental dependence in the patient and it is way cheaper than its branded counterpart.

**Generic Viagra** comes in table form with different dosages. The main goal of the drug is to relax the smooth muscle tissues of the cavernous tissues of the male reproductive organ and to reach an increase of free flow of blood which gives a fast and strong erection with an average of 15 minutes. Even after ejaculation, erection is present which allows the

person to have sexual intercourse longer than normal. However, always remember the following contraindications before ordering a generic Viagra: abstain from using it if you have a serious illness like heart disease, blood related disease like hypertension and those related with kidneys, liver and multiple myeloma. It can also cause allergic reaction if taken improperly. Do not take a generic Viagra when you are taking also drugs from the nitrate group such as nitroglycerin and cardiac because they can cause a drop in blood pressure and give you dizziness and fainting. You cannot also use generic Viagra with other potency drugs thinking it will increase its effects. Poor vision, nasal impairment and headache can be also felt by some of its users.

To increase your knowledge on generic Viagra, you can read articles and reviews in the internet. SatisFACTS, which is an international online survey on men's sexuality, conducted a survey in 2011 by GFK and funded by Bayer HealthCare about erectile dysfunction and sexual satisfaction of men. The survey's results revealed that there is a rapid onset of action and effectiveness of drug usage. 66.1 % finds that there is action every time, 63.2% rapid onset of effect, and 61.3% convenience of reception. In addition, 54.4 % says that generic Viagra should have the possibility of take with food and 44.7% wants a discreet packaging on to it especially for younger respondents.

You can now **buying generic Viagra and Cialis** though online store which helps a user on its erection, strength to potency and increase in intimacy. This are all because of its active ingredient called **Tadalafil**.
